001.05A Camping is defined as the temporary lodging out-of-doors for outdoor recreational purposes including, but not limited to occupancy of a shelter designed for such purpose (i.e. tents, or camping unit).

001.05B Park area is defined as the area within the legal boundaries of any real property owned, operated, managed or leased by the Nebraska Game and Parks Commission and administered by the Parks Division of the same, including but not limited to State Parks, State Historical Parks, and State Recreation Areas.

001.05C A camping unit is defined as a cabin trailer, camping trailer, fifth-wheel trailer, motor home, park trailer, travel trailer, truck camper, van conversion or other recreational vehicle primarily designed as temporary living quarters for

recreational, camping, or travel use, which unit either has its own motive power or is mounted on or towed by another vehicle as referenced in § 60-314; 60-6,288(2)(k); and 71-4603 (1)(7)(14)(16)(19)(22)(23)(24).

001.05D Camping and the use of trailers or other camping unit is permitted only at designated locations, or in areas as approved by the Park Superintendent at undesignated locations. Within designated locations, the pitching of tents or parking of trailers or other camping units is permitted only at designated sites.

001.05E A campground is defined as an area in which multiple campsites are established or identified. The Park Superintendent can establish temporary campgrounds or campsites for special events or when demand warrants such need.

001.05F A campsite is a defined area on which camping is permitted by patrons who have registered and paid fees for the use of the defined area. Campsites may be labeled by a number or name depicted on a post, sign or similar object. The defined area of a campsite includes any improvements located near the campsite's label; including but not limited to pull-ins, fire rings/grates, and/or picnic tables or structures, unless such improvements are separately labeled and intended for individual reservation or public use or public access.

001.05G The maximum occupancy of a campsite is: (1) one camping unit and one tent; (2) two tents; (3) additional tent(s) as pre-approved by the Park Superintendent; or (4) in the event patrons elect to sleep outside of a tent or camping unit, the amount of persons as pre-approved by the Park Superintendent. A "bug screen" structure shall be considered a tent for the purposes of this regulation if used for overnight occupancy. Additional tents or occupants may be assessed an additional camping fee in accordance with the current fee schedule established by the Commission.

001.05G1 Occupancy at a campsite will allow for one (1) vehicle that is used to tow or transport the camping unit, or one (1) vehicle that is towed by the camping unit. Extra vehicles or trailers must be parked in alternate locations provided or designated for purposes of parking, or in areas approved by the Park Superintendent.

001.05G2 Occupancy at a campsite will allow for up to eight (8) individuals, unless limiting factors such as terrain, safety, resource protection or infrastructure capacity exist, as determined by the Park Superintendent. The Park Superintendent may allow for occupancy exceeding eight (8) individuals when limiting factors at a campsite do not exist or are mitigated.

001.05H The Park Superintendent may allow camping in undesignated areas outside of a campground when those locations can appropriately accommodate patrons for overnight occupancy, and assess a camping fee in accordance with the current fee schedule established by the Commission.

001.05I Camping, or occupying locations within a park area or campground is permitted for a maximum of 14 consecutive days during any 30-day period except as provided Part 001.05Q, and excluding portions of a park area assigned to third party operators under separate concession agreements or permits. For purposes of Sub-section 001.05, the 14 consecutive days means 14 calendar days with the first day being the first day a campsite or location is deemed unavailable to other park patrons via proper payment for or occupancy of that location; (i.e. campsite, cabin, lodge room, shelter, etc). The installation of permanent camping facilities is prohibited. Following the 14<sup>th</sup> day as defined above, a patron may re-register and relocate to a different unoccupied and available campsite within a park area as follows:

001.05I1 In park areas that offer more than one (1) campground, and when 25% or more of existing campsites are available, the Park Superintendent, or their designee, may allow a patron to re-register for an unoccupied and available campsite within the other campground. The patron must gain permission from the Park Superintendent, or their designee, in advance and must physically relocate the camping unit/tent(s) to the campsite within the other campground.

001.05I2 In park areas that only offer one (1) campground, and when 25% or more of existing campsites are available, the Park Superintendent, or their designee, may allow a patron to re-register for an unoccupied and available campsite within the same campground. The patron must gain permission from the Park Superintendent, or their designee, in advance and must physically relocate the camping unit/tent(s) to the other campsite.

001.05O Campsites identified as "first come-first served" and not designated as "for advance reservations" may be purchased when available and unoccupied. At the time of the purchase, the patron must be able to physically occupy the campsite immediately. If the patron is unable to immediately and physically occupy the campsite at the time of purchase, the Park Superintendent, or their designee, may approve a delayed arrival, not to exceed 12:00 p.m., (Noon), of the following day. A campsite will be deemed physically occupied when a camping unit as defined in 001.05C, or a shelter defined for camping, as described in 001.05A, is erected upon the campsite.

A campsite must be properly registered and paid for before a patron can physically occupy any site.

Reserving a campsite by leaving a vehicle or other property unattended is prohibited without prior permission of the Park Superintendent and such property is subject to impoundment by the Park Superintendent or Law Enforcement Officer in accordance with Sub-section 001.01.

001.05P Where indicated by appropriate sign at the entrance to a designated camping area, permission to enter or occupy such area is reserved to campers between the hours of 10 p.m. and 6 a.m. No other persons shall have permission to enter or occupy such areas unless specifically authorized by the Park Superintendent.

001.29G3 The responsibility of the Commission for fences along a state recreational trail shall not exceed the amount appropriated to the Commission by the Legislature for such purpose during any biennium, provided the Commission may use any funds specifically gifted or obtained by grant application for the sole purpose of providing fencing for a state recreational trail. The amount of funding available to a single landowner shall not exceed twenty-five percent of the Commission's total appropriation in any one year, unless uncommitted funds are available following processing of all other applications.

001.29G4 Prior to commencing any work, adjacent landowners shall submit application in writing to the Commission for funding assistance in the construction of any new fence, replacement fence or fence repair. 001.29G6 Applications for Commission participation in the repair of existing fence shall be considered and prioritized in the order in which received. In the case of emergency fence repair involving livestock on the trail or roadway, the landowner may undertake such repairs without prior notification, provided such notification is given in writing within seven calendar days of completion of such work. To obtain reimbursement of costs, the landowner will be required to submit original receipts for materials purchased. Only actual and reasonable material costs will be reimbursed. "Actual costs of materials" shall be defined as those posts (steel or wood), wire (barbed or smooth), staples, and insulators purchased to affect the repairs. There will be no reimbursement for labor, mileage, gasoline, tools, meals, lodging, or other costs. Replacement materials may be offered as reimbursement, if acceptable to the landowner.

On January 1, 2011, the following Sub-section 001.11 shall become effective and shall supersede and take the place of any prior version of that section.

001.30 Exceptions to Regulations

Chapter 5 - State Park Regulations

005 Regulation's governing public hunting at Eugene T. Mahoney, Chadron, Indian Cave, Niobrara, Platte River, Ponca and Smith Falls State Parks. Under the authority of, and in compliance with Sections 37-301 through 37-302, 37-304 through 37-308, 37-309 through 37-313, 37-344, R.R.S. 1998, 37-314, R.R.S. 1999, 37-303, R.R.S. 2000, 37-308.01, R.R.S. 2002, the following regulations are prescribed by the Game and Parks Commission of the State of Nebraska, and are effective following enactment by the Game and Parks Commission, approval by the Attorney General and Governor, and when five days have elapsed since filing with the Secretary of State.

005.01 Hunting may be permitted on Eugene T. Mahoney, Chadron, Indian Cave, Niobrara, Platte River, Ponca and Smith Falls State Parks in accord with established hunting seasons and permit requirements and shall be subject to the following terms and conditions:

005.01A Commission staff will prepare an annual recommendation for Commission review and approval. The recommendation will designate which game species may be hunted, open hunting periods, the areas at each park open for hunting and any other special area restrictions or limitations.

005.01B No person shall hunt within the confines of these State Parks without first obtaining permission to hunt therein. Any person desiring to hunt within the confines of these State Parks must first register to hunt in person at the park headquarters and obtain written evidence of such registration. Such written evidence of registration shall be prima facia evidence of permission to hunt within the confines of these State Parks. Any person hunting within the confines of these State Parks shall show his certificate of registration to any law enforcement officer or Game and Parks Commission employee upon demand. Any person hunting within the confines of these State Parks who does not possess on his person or who fails to show upon demand his written permission to hunt therein shall be deemed to not have permission to

Title 163  
Chapter 5

hunt within the confines of these State Parks.

005.01C By enactment of these regulations, it is the intent of the Game and Parks Commission to provide for the optimum recreational use of these State Parks by the using public. Public hunting at these State Parks is, therefore, recognized as a sound and proper use of these State Parks, when such hunting is compatible with public safety, fire and property protection, and sound management of the wildlife species found within the confines of these State Parks. Because the circumstances involving public safety, fire and property protection, and sound wildlife management may change from day to day within the confines of these State Parks, the Game and Parks Commission herewith delegates to the Division of State Parks authority to limit the number of registrants, or refuse registrations to hunt, or may limit such registrations to specific game species or to any portion of these State Parks as the primary considerations of public safety, fire and property protection, and sound wildlife management dictate. Registrations shall be accepted on the basis of a public drawing if there are more registrants than area permits available and remaining permits will be issued on an impartial first-come, first-served basis. This delegation to control public hunting at these State Parks shall also include authority to provide flexible safety zones around buildings or other portions of these State Parks, in which safety zones no permission shall be granted for public hunting.

005.01D To further provide for public safety, fire and property protection and sound wildlife management, authority is herewith delegated by the Game and Parks Commission to the Division of State Parks to divide these State Parks into reasonable areas to which one or more hunters may be assigned. Such assigned hunters shall have permission to hunt only their assigned area, and shall not be deemed to have permission to hunt these State Parks outside of their assigned areas. Such area assignments shall be indicated in the aforementioned written evidence of registration.

005.01E Be it further provided that in the performance of hunting at these State Parks, individual registrations may be granted by the park authority for a valid period of one or more days. All hunters so authorized shall personally return the certificate of registration to the
